The OST is okay but I have to give a thumb DOWN because:

* No cover image??? The store banner is too small (and not square enough) to be used as cover image, and I DO NOT want to use that NSFW preview image as cover image, either.

* The music playing in credit is missing. NO, it is NOT in track #22 - Ascension To Ballhalla.

* No tailor-made SFX, like the floor trap chord synth, cannon shot, or Bossballa's laser in OST? It's main selling point of this game!!! Although I am willing to buy the revised version if it actually release later...
